

Octamethylcyclotetrasiloxane

Description

Organosilicon compound with the formula $[(CH_3)_2SiO]_4$.

Special features

Can be used:

- as a basic raw material for the manufacture of methylsilicone oils, silicone fluids and elastomers;
- in the production of SKT type silicone rubbers, high viscosity polymethylsiloxane liquids;
- as a carrier and solvent in polishes;
- as a processing agent for rubber padding;
- as a raw material in the production of cosmetics;
- in the production of cleaning agents (helps to remove dirt, improves wetting).

Methods of application

According to the technological regulations in effect at the customer's enterprise.

Storage

Store in tightly closed original packaging at temperatures up to 30 °C.

Store in a cool, dry, well-ventilated place away from areas presenting a fire hazard and away from oxidizing agents, acids and alkalis.

The shelf life in the manufacturer's container is 24 months.

Storage longer than the date indicated on the label does not necessarily mean further unsuitability of the product. However, if the shelf life is exceeded, the properties of the product should be checked before use.

Packing

- Polyethylene barrels with capacity up to 220 dm³;
- steel barrels with a capacity of 200 dm³;
- polymeric containers with capacity up to 1 m³.

Safety instructions

The product is flammable, observe fire safety precautions when carrying out work. Detailed instructions are given in the relevant product safety data sheet. It can be provided upon request from the Unisil Hungary Kft or printed from the website Unisil Hungary Kft www.unisil.eu.

Product specification

Appearance	Transparent oily liquid
Color, mg Pt-Co/l	≤10
Density at (20,0±0,5) °C, g/cm ³	0.956
Refractive index, n _D ²⁰	1.3960-1.3970
Mass fraction of Octamethylcyclotetrasiloxane (D4),%	≥99.0
